**- Innovative station for iPod, Classic design look with vacuum tubes, Feature-Rich, All In-One “Made for iPod” System Features Full-Function Remote, Video Output and Detachable Speakers-**

**Hayward, California – September 14, 2006** – i.Dream designs and manufactures of the most innovative, features riched, and trend leading “Made for iPod®” products, today announced the company has completed the product development after the overwhelming response at CES2006 and start to ship the “i-Classic” Digital Audio System model ID002-CS1 in October 2006. The “i-Classic” gives the best value for price which outperform the same class competitors’ product with richer features, superior audio quality, and distinguish design which make the “i-Classic” stand out of the crowd. i.Dream’s products are certified with “Made for iPod” by Apple assuring the high performance and quality standard of our product.

“i-Classic” will play and charge all current iPod players (except shuffle) via 7 universal docking adaptors, features 20 preset stations for FM and AM radio, alarm clock with snooze, sleep timer, and video output, the unit will play back videos and photos from an iPod on any TV with a S-Video input. This unit delivers powerful performance through to the acoustically calibrated 5W+5W stereo speaker system providing quality dynamic sound. Speakers are detachable for boarder stereo sound playback setup. Stereo line in jack permits connection to any MP3 player or audio source and stereo headphone jack allow headphone listening. Easy to read amber backlit LCD display with digital clock and timer. Power is supplied through a wall plug power adaptor. An elegant design full function remote control is included.

**Pricing and Availability**

Available in white and soon other colors will announced in near future, ID002-CS1 (order part number IDAI-CS-MU001) will ship in October 2006. MSRP is \$129.99
